

## IN TEN DAYS

Pittsburg's Y. W. C. A.  
Secured \$300,000.

## FOR NEW BUILDING

They Thereby Obtained an Endowment of \$200,000 from H. C. Frick—Exciting Incidents.

Pittsburg, May 20.—Following a whirlwind popular subscription campaign of ten days, the members of the Young Women's Christian association of this city have raised a building fund of over \$300,000, thereby earning an endowment fund of \$200,000 from H. C. Frick for the purpose of building a large permanent home for the association in Pittsburg.

Scissors have such a remarkable campaign been conducted here and Pittsburgers were given many surprises by the young women in the manner of collecting funds for a noble purpose.

As the time drew near the close, lacking several thousand dollars of the required amount, it became intensely exciting. Hourly bulletins were posted on a large banner which hung over the door of the association's headquarters in the Home Trust building, Sixth avenue and Wood street. This feature interested thousands of persons. Every newspaper carried large headlines and columns of front page space concerning the campaign, making it impossible for Pittsburgers to lose sight of the matter.

It was the original intention of the association to close the campaign on Friday night. However, when the time arrived the fund lacked almost \$25,000. Another day was added and the members of the association, who were divided into teams, made another tour of the city. Excitement was intense and every one worked with amazing energy. As 9 o'clock Saturday night drew near, the time set for the close of the campaign, almost \$10,000 was needed. At 8 o'clock came a special delivery letter from a man who declared that his name not be made public. Inclosed was his check for \$4,000. Other pledges, ranging from \$50 to \$500, came in at intervals.

A short time before 9 o'clock the telephone bell rang and Miss M. S. Dunn, of New York, secretary of the economic board of the New York Y. W. C. A., who was in charge of the campaign, answered the call:

"How much do you need?"

"About \$5,500."

"Put me down for that amount."

This contributor also desired his name withheld.

While the campaign has closed and there is sufficient funds for the building of the new home, the contributions are still coming in. At the last count there was \$4,000 over the required fund of \$500,000.

Other cities have written to the local headquarters of the association concerning the campaign and the same plans will be used elsewhere.

Miss Dunn, of New York, intends to travel over the country managing these campaigns.

Progress of the Haywood Trial.

Boise, Idaho, May 20.—Several important witnesses summoned in behalf of the state in the trial of William D. Haywood arrived here Sunday. The prosecution had hoped by this time that a trial jury would have been impaneled, but it is evident that all 12 seats in the jury box will not be filled for several days. When court adjourned Saturday the attorneys were trying to fill a vacancy caused by the exercise of the state's fifth peremptory challenge. The defense still has six of its ten arbitrary challenges available and the state has five.

The Frisco Street Car Strike.

San Francisco, May 20.—With the exception of the assertion by the United Railways that 17 motormen and conductors were taken back Sunday, there is no change in the street car strike. The day passed without any general rioting. There were numerous individual acts of violence and the police made 40 arrests.

Two Children Suffocated.

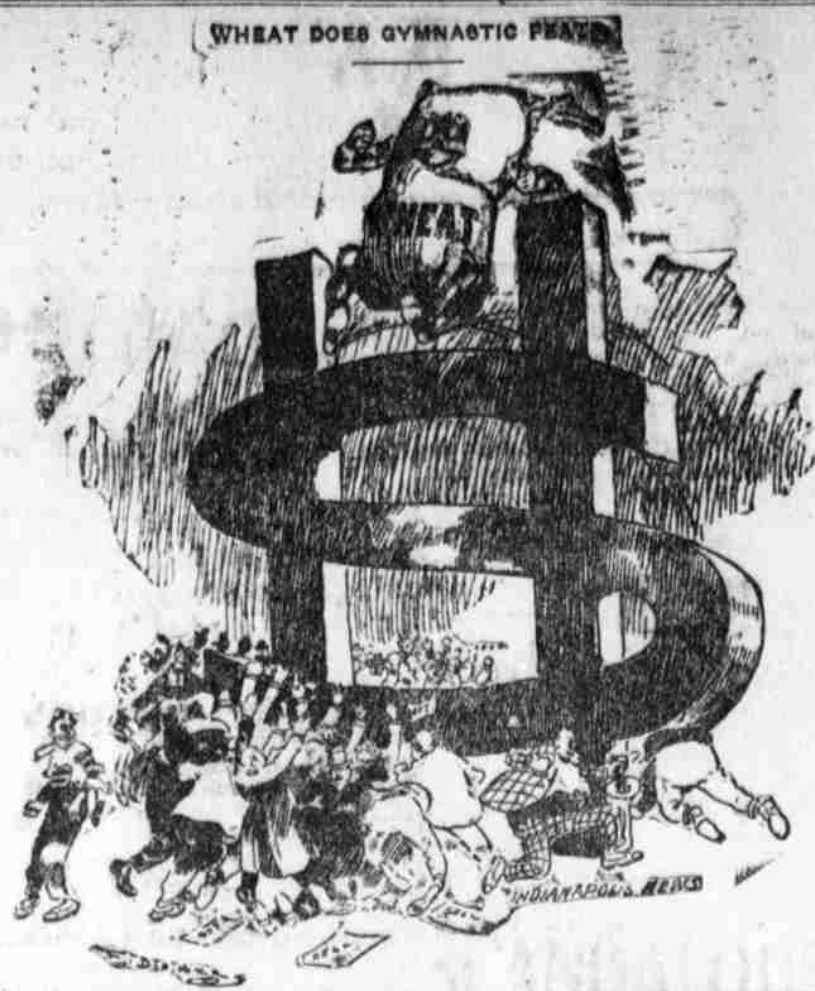

Greensburg, Pa., May 20.—Two children of John Goodlin, one 15 months and the other 4 years old, were suffocated last night at Scott Haven. A lamp left in the room where the children were sleeping exploded, setting fire to the furnishings. Both children were smothered by smoke.

Murderous Jealousy.

New Castle, Pa., May 20.—Lemora Garlana, 32 years old, and Louis Messina, 19 years old, were probably fatally shot Sunday at Besemer. The woman's husband is alleged to have done the shooting as the result of jealousy.

Strike Breakers Were Bombarded.

Evansville, Ind., May 20.—More than a score of persons, mostly strike breakers, were hurt, some seriously, in the attempt made Sunday by the street car company to resume traffic on its lines. Union sympathizers utilized the day of freedom from work to bombard strike breakers with missiles of every sort. In almost every instance by the time the police arrived the guilty persons had retreated themselves in the crowds, leaving the injured motormen and conductors to be taken care of by the doctors.

### KUROKI AT GEN. GRANT'S TOMB.

Famous Japanese General Places a Laurel Wreath Thereon.

New York, May 20.—When 28 years ago Gen. U. S. Grant in his tour of the world was the guest of the emperor of Japan, one of the officers assigned to attend him was a young colonel who on Sunday as Gen. Kuroki visited Riverside drive and there with impressive Oriental ceremony placed a laurel wreath upon the American's tomb.

To Gen. Kuroki this pilgrimage to Grant's tomb was the chief event of his stay in New York. Accompanied by Gen. and Mrs. F. D. Grant, U. S. A., Gen. O. E. Wood, U. S. A. (retired), and Maj. Charles Lynch, U. S. A., Gen. Kuroki's party proceeded in automobiles to the tomb late in the afternoon. Reaching the vicinity Gen. Kuroki was the first to alight, in his hand he carried the wreath.

As the party entered the tomb all removed their hats and Kuroki advanced towards the sarcophagus. When he reached the bier he stopped and an aide placed the wreath in position. For several minutes the party stood in silence, then retracing their steps entered automobiles and were driven back to the Hotel Astor.

Earlier in the day Gen. Kuroki gave a reception and luncheon at the Hotel Astor to several of those who had helped to make his stay here pleasant.

The real object of the luncheon was to launch the recently formed Japan Society of New York. The project met with the hearty approval of Gen. Kuroki and all the Americans present.

Port Townsend, Wash., May 20.—Six Japanese girls, each nailed in a pine box, were nearly killed by sulphur fumes on board the steamer Onaka at Victoria. The girls, said to be imported for immoral purposes, were consigned to K. Sessoukien, a steamer passenger, alleged to be Taki Kalloro, a procurer, who was deported from San Francisco two years ago. Through exchange of courtesies between British and American officials the six women were brought here and will be sent back to Japan on the Onaka.

## GOOD WORK

Performed in Cuba by American Soldiers.

## MORAL TRIUMPHS

As Well as Material Achievements are Credited to the So-Called Army of Pacification.

Havana, May 20.—Enriched by constant practice in every department of military experience save the supreme test of battle, the army of Cuban pacification, after a bloodless campaign of six months, may fairly take rank as the crack corps of the forces of the United States. Without having been called upon to fire a shot or to make a single hostile demonstration it has to its credit a list of achievements of which officers and men are justly proud.

Among its moral triumphs have been the maintenance of a standard of discipline and sanitation of more than Japanese excellence and the preservation of perfect self-control while in contact with an unwholesome population. Its greatest material achievement has been the production, based on countless reconnaissances and surveys, of a chart of the island of Cuba which officers declare to be the most minutely perfect military map in existence. With the completion of this work the possibility of successfully carrying on guerrilla tactics such as formerly enabled the Cubans indefinitely to prolong their revolutions against the overwhelming forces of Spain may be said to have vanished.

Should United States troops ever be called upon to take the field in Cuba they will begin the campaign with the inestimable advantage of perfect familiarity with the topography of the whole island, including every trail and by-path and every mountain fastness in which Gomez, Garcia, Maceo and other heroes of the war for independence were wont to bid defiance to Spanish pursuit.

Added to this increase in railroad facilities and the completion of the projected system of highways throughout the island will afford such ready means for the rapid transportation of troops as will make any attempt at hostile concentration little short of impossible.

The army of Cuban pacification, which originally numbered 6,500 men of all arms, has now dwindled by the natural process of discharges on expiration of enlistments to about 5,500 men. There are also under Gen. Barry's command about 1,000 marines. These it was proposed to withdraw, but on account of the difficulty of obtaining recruits sufficient to fill up the ranks of the army they will be retained, in compliance with the request of Gen. Barry, who believes that his force is none too large as it is. Of these troops nearly 2,000 quartered in Camp Columbia form the garrison of Havana and the remainder are stationed over the island in 30 posts, 11 of which are occupied by marines.

Against this force there is yet to be registered a single trespass upon the persons or property of the people, the protection of whom against each other has been the main object of the army's presence, and this is the feature of the campaign of which the commanding general is most proud. It is true that there have been a few clashes between rural guards and the American forces in which the unarmed soldiers have been at a disadvantage with their machete-wielding opponents, but these occurrences always have resulted from the jealousy of the Cubans and in no instance have the soldiers permitted themselves to make reprisals.

Japan Pours Gold Into America.

New York, May 20.—America's industrial invasion of the far east is now in full swing, and Japan is pouring a golden stream into the United States for steel rails, cars and locomotives. Twelve million dollars already have been expended in this country for railroad supplies, to be used in the construction of the South Manchuria railroad and contracts involving millions of dollars are pending. Deliveries of rails are being made, and for the next three months steamships chartered by Japan will ply across the Pacific bearing cargoes of steel and iron. Manchuria will be strapped with American steel rails from Daini to Mukden.

Appealed to the Highest Court.

Topeka, Kan., May 20.—The United States supreme court will throw out the fight that has begun to drive out the brewery deposits from Kansas. This important turn came late Sunday when the Kansas supreme court issued an order appointing receivers for properties in Kansas belonging to the Anheuser-Busch Brewing Co. of St. Louis. Attorneys for the Anheuser-Busch Co. at once announced the filing of supersedeas bonds and the appeal of the case to the United States court. The question involved is whether Kansas has a right to confiscate the property.

His condition is very serious.

Extravagance in Dress.

Very few persons outside of the glittering circle of our enormously rich families, who constitute what is referred to as "the best society," can understand how any young woman in this or any other country can spend upon her wardrobe such vast amounts of money as are expended by the daughters of some of these families. The history of the world does not show such reckless extravagance in the way of dress. Nor, for the matter of that, does the history of the world show so riotous a use of money as that practiced by our very rich in their strictly social diversions.

Happy is the lot of the man or woman who is not tempted to such foolish indulgences, which take the edge from life's real joy!

Fled from Gaze.

"I had a friend," said the bearded man, "who got out of paying a bill he owed in an original way. When the collector arrived he went word to him that he would see him in a few minutes. Then he went into the parlor, shut the doors carefully, turned on every blessed burner in the chandelier, came quickly out, and had his man show the bill collector in the parlor while he hurried upstairs. Do you think that collector waited a few minutes for him to come down? Not on your photograph. He fled from that gas filled room in about two seconds by the clock. If he had stayed three he'd have been suffocated."
